

Air Fryer Deerma DEM-KZ130W

Air Fryer Deerma DEM-KZ130W

Ref: 6955578042072

Deerma DEM-KZ130W Oil-Free Fryer

The Deerma DEM-KZ130W is a fat-free fryer with a large capacity of 5.5L, in which you can even prepare a whole chicken. The device offers 6 programs that have temperatures and cooking times selected for the type of food. You can also change them at will. The fryer allows you to see the whole process thanks to the built-in glass - you no longer need to open or turn off the device to check the condition of the food. Another advantage is the scheduling of automatic baking time up to 24 hours in advance.

Spacious Chamber

The Deerma DEM-KZ130W oil-free fryer lets you prepare a whole chicken, an entire fish, two steaks, 8 wings, or 4 sweet potatoes at once. Save a lot of time on cleaning and preparation thanks to DEM-KZ130W. The cooking surface is a separate element, making it very easy and quick to clean, so you can spend more time doing what you love.

Plan Your Meal in Advance

With the cooking scheduling feature, you can place all the ingredients in the device in the morning and set the time for when the dish should be ready. The device will start working accordingly before the set time, allowing you to enjoy a hot meal on time. Planning a gathering? In this case, too, the Deerma fryer is perfect - put all the ingredients inside, set the party time, and you're ready! Delicious dishes will be ready to eat when you want.

6 Different Programs

The Deerma DEM-KZ130W comes with 6 predefined programs with preset temperatures and times for defrosting, frying fries, wings, seafood, steaks, and pancakes, making meal preparation easy. Everything is done without adding any extra fat, making it easier to maintain a delicious diet. Want to set specific parameters yourself? No problem, have fun experimenting in the kitchen!

Ensuring Your Safety

The Deerma DEM-KZ130W is a 1300W oil-free fryer that uses circulating hot air in a closed circuit to prepare a delicious meal for you. To ensure your safety, the device is equipped with dynamic NTC temperature control and a handle to protect against burns, making it even more enjoyable to use. In addition, the fryer has buttons for changing the temperature, setting the delay time for cooking, selecting the menu, and turning it on and off.
