ORICO-M222C3-G2-SV-BP SSD ENCLOSURE (Silver)

Ref: 6936761809825

ORICO-M222C3-G2-SV-BP HDD ENCLOSURE (Silver)

The ORICO M222C3-G2-SV-BP external drive enclosure is suitable for various applications. It will come in handy at work, during video editing, and even during gaming. You can also easily connect it to a smartphone that supports OTG functionality. The product provides a transmission speed of up to 10 Gbps and is compatible with many different devices. Furthermore, its enclosure is made of durable aluminum alloy, ensuring efficient heat dissipation.

Convenient Access to Necessary Files

Do you often transfer photos or videos between devices? You no longer have to wait too long for all the files you need to be in the right place! The ORICO enclosure allows data transfer at speeds of up to 10 Gbps. Additionally, the product can handle drives with capacities of up to 4 TB. So, you don't have to worry about running out of space for your files! Now you can conveniently store vacation photos, important documents, or favorite series.

Practical 2-in-1 Cable

The set includes a practical cable with an additional connector cover. Thanks to this, it can serve as both a USB-C to USB-C and a USB-C to USB-A cable. It also features a 60W PD output, making it ideal for various applications. Note: file transfer speeds of up to 10 Gbps are only possible when the device is connected in USB-C to USB-C mode.

Highest Build Quality

Don't worry about the enclosure overheating excessively. The use of high-quality aluminum alloy and thermal pads ensures rapid heat dissipation and, consequently, stable operation. The built-in chip also ensures reliable device operation, supporting the TRIM function and UASP protocol. The enclosure is also very durable, effectively protecting the installed drive from damage.

Perfect for Every Situation

Are you going on vacation or a business trip? Take all the files you need with you! The enclosure weighs only 140g, and its dimensions are 107 x 29 x 12.5 mm. You can easily fit it in your backpack or laptop bag. The product also stands out with its wide compatibility - it works perfectly with Windows, macOS, Linux, and Android operating systems. It is also compatible with NVMe PCI-E 2230 / 2242 / 2260 / 2280 SSDs and is very easy to install.
