

Filters Freewell All-Day for DJI Air 3 (8-Pack)

Ref: 6972971864056

Filters Freewell All-Day for DJI Air 3 (8-Pack)

Filters Freewell All-Day for DJI Air 3 (8-Pack)

The All Day Kit is a complete set of 8 filters designed for DJI Air 3. The set includes ND4/PL, ND8/PL, ND16/PL, ND32/PL, ND64/PL, CPL, ND1000, and ND2000 filters, allowing you to reduce the amount of light entering the lens and achieve advanced effects, such as reducing glare on the water surface while extending the exposure time. Create breathtaking photos and experiment with Freewell filters! The set includes a special case for storing filters and a cleaning cloth.

CPL Filter

The CPL polarizing filter is designed to reduce light reflected from various surfaces, while ensuring color neutrality. It is lightweight and coated with a special layer that ensures optimal image quality. Your photos can gain even more depth and will delight with naturalness.

ND1000/ND2000 Filters

ND (Neutral Density) optical filters allow for the reduction of light reaching the camera's sensor without changing the color or tone of the photo. These filters are very useful when we need to extend the exposure time or increase the depth of field while maintaining proper exposure. The filters allow for a reduction of light by 10/11 stops, respectively. As a result, you will achieve blur of moving elements - e.g. water, or clouds.

ND/PL Optical Filters

The set includes 5 different ND/PL filters. This is a combination of ND (Neutral Density) and CPL (Circular Polarizing) filters. They combine the properties of both filters, allowing you to achieve fantastic effects. They are used to reduce the amount of light and allow extending the exposure time. In your photographs, you can achieve the effect of blurring water or clouds. Moreover, ND/PL filters enable the reduction of light reflections from surfaces such as water, glass, etc. Using the filters will allow you to obtain clearer, more natural landscape photos. ND/PL filters are available in different degrees of light reduction and polarization, allowing them to be adapted to specific lighting conditions and the effect you care about.

Included in the set

Filters (ND4/PL, ND8/PL, ND16/PL, ND32/PL, ND64/PL, CPL, ND1000, ND2000)

Case

Cleaning cloth

Manufacturer

Freewell

Model

FW-A3-ALD

Compatibility

DJI Air 3

Filter Type

ND4/PL, ND8/PL, ND16/PL, ND32/PL, ND64/PL, CPL, ND1000, ND2000

Optical Coatings

Dustproof, scratch-resistant, oil-resistant

Preço:

€ 140.00

Drones, Fotografia, Other, Video, Acessórios, Filters, DJI Mavic, Mavic 3
