

Rojeco 4000mAh Cat Litter Box Deodorizer

Rojeco 4000mAh Cat Litter Box Deodorizer

Ref: 6975116292899

Rojeco 4000mAh Cat Litter Box Deodorizer

Looking for a way to keep your cat's litter box fresh, extend the life of the litter and eliminate unpleasant odors? Rojeco has the perfect solution for you! The smart odor absorber features a deodorization rate of $\geq 99\%$ and is equipped with a negatively charged ion generator that automatically releases deodorizing and dust-reducing ions. The unit monitors odor around the clock, eliminating up to 99% of odors. Thanks to a sensor, it automatically turns off when the cat enters the litter box and turns on again when it leaves it. Light indicators indicate the status of its operation, and the powerful battery provides up to 7 days of operation. In addition, the product operates quietly enough not to disturb your night's rest or startle your pet.

High deodorization rate

The smart odor absorber solves common problems faced by cat owners. What are these problems? Among others, unpleasant odor from the litter box and dust from the litter, which negatively affects air quality. The Rojeco device not only removes and neutralizes offensive odors, but also works with exceptional efficiency, which is confirmed by its deodorization index of up to 99%. Thanks to it, the air in your environment becomes fresher, and your cat can enjoy a hygienically maintained and comfortable litter box.

Effective ion action

The negative ion generator that the odor absorber is equipped with automatically releases deodorant and dust-reducing ions, eliminating

unpleasant odors and improving air quality. In addition, it monitors odors around the clock. Enjoy effective deodorization and say goodbye to the problem of unpleasant aromas for good!

Safe for cats

Rojeco's odor absorber is designed with your cat's comfort in mind. It features biosensors so that it automatically shuts off when your pet approaches the litter box and restarts when the box is not in use. The device provides your pet with a calm and stress-free experience.

Light indicators

Gentle, pet-friendly light indicators allow for an undisturbed night's rest. A blue light indicates that the device is monitoring odors. The flickering of this light indicates that the canister is actively removing odors and reducing dust. The red light, on the other hand, indicates a low charge. With this solution, you will always have access to information on the operation of the canister.

Long working time

With a 4,000 mAh battery, the Rojeco odor absorber can work for 7 days. So you will enjoy clean air without the need for frequent charging.

Quiet operation

Do not be afraid of annoying noise. The odor absorber works extremely quietly - the noise it generates does not exceed 20 dB. Thus, it provides discretion, and your cat will be able to enjoy peace of mind.

Hassle-free installation

The device uses a durable nut with double-sided tape on the back, so you can install it on any surface without any problems. You don't have to limit yourself to your cat's litter box - you can also keep the air clean in your shoebox, kitchen, toilet or closet.

Included:

Smart odor absorber
