Flat UTP Category 6 Network Cable Vention IBABE 0.75m Black

Vention IBABE Cat 6 UTP Flat Network Cable 0.75m Black

In the world of digital communication, the quality of the connection is key to efficient and stable performance. The right choice of network cable is crucial to this. We present the Vention IBABE model cable — a combination of reliability and functionality. With it, your network connection will reach a new level. Here are its main features.

Versatility of Use

The Vention IBABE network cable has been designed for a variety of applications. Its compatibility with computers, laptops, routers, switches, and IBABE makes it indispensable not only in offices or internet cafes but also in the comfort of your home. With it, you can connect to the network in any place and situation.

Flat Design

The unique, flat design of the Cat 6 UTP cable is not only aesthetically pleasing but also practical. It allows for easy laying and organization of cables in places with limited space. Moreover, this category of cable provides high throughput and reliable data transmission, making it ideal for more demanding applications.

Durability and Reliability

Made of PVC material, the Vention IBABE cable is not only flexible but most importantly resistant to mechanical damage and abrasion. The classic, black color additionally blends into any interior and does not attract attention, allowing for discreet cable management.

Thoughtful Construction

With a length of 0.75m, this cable is perfect for most applications, offering the right length without unnecessary tangling or cluttering of space. By choosing the IBABE model from Vention, you gain the assurance of reliable and stable operation in all conditions.
