Category 7 SFTP Network Cable Vention ICDHL 10m Gray

Vention Cat. 7 SFTP Ethernet RJ45 8P8C Cable 10m

In the world of technology, where reliability and connection speed are key to effective work and entertainment, the Vention Cat. 7 SFTP cable stands out as an excellent choice for those who value quality and performance. Its well-thought-out construction sets it apart from other cables available on the market, making it the perfect solution for those who refuse to compromise.

Exceptional Build

The Vention Cat. 7 SFTP cable is designed for the highest quality data transmission. Its core, made of oxygen-free copper, is surrounded by aluminum foil and a metal braid. This combination makes the cable highly resistant to magnetic interference from the surroundings, ensuring stability and speed in data transmission.

Gold-Plated Connectors

The cable connectors are coated with a thin layer of gold. Gold-plated connectors not only add an aesthetic touch but, more importantly, enhance conductivity and protect against corrosion, ensuring long-term cable usage.

Breakage Protection

Anyone who has ever used an Ethernet cable knows how easy it is to break the securing clip. The Vention model is equipped with a

special protection to safeguard the clip from breaking, making connecting and disconnecting easy and hassle-free.

Protective Caps

The included caps for the connectors are another advantage of this cable. They shield the connectors from dust, dirt, and other factors that can affect the connection's quality. This ensures that the cable maintains its properties for an extended period.

Resistance to External Factors

The Vention Cat. 7 SFTP cable is durable and resistant to various external factors. Its resistance to bending, fire resistance properties, and moisture resistance make it an excellent choice for any type of installation.

Brand Vention

Model CDHL

Color Gray

Length 10m

Interface RJ45 8P8C

Conductor Oxygen-free copper

AWG 28AWG

Bandwidth 600MHz

Transmission Speed 10Gbps

Gold-Plated Connectors Yes
