Vention ALGLH 8K 2m HDMI 2.1 Cable

Ensure fantastic image quality when playing games, watching movies, and more. The Vention HDMI cable supports 8K resolution and is known for its wide compatibility. With it, you can easily connect a computer to a monitor or a gaming console to a TV. It also boasts high-quality construction. Aluminum alloy components ensure rapid heat dissipation, while a cotton braid and PVC coating protect it from damage. The cable's gold-plated connectors are an additional asset, known for their durability and resistance to rust.

Top-notch Image Quality

The cable supports 8K resolution and a 60 Hz refresh rate, making the displayed images exceptionally smooth and rich in detail. The product also supports Dynamic HDR, guaranteeing vibrant, natural colors. Furthermore, with a 48 Gbps bandwidth, QFT technology, and ALLM mode, you can comfortably play dynamic games without worrying about signal transmission issues. The VRR feature deserves attention as well, helping you avoid delays and screen tearing. The cable also allows for simultaneous video and audio transmission, with eARC technology ensuring clean, crisp audio.
