USB-C to DisplayPort 8K HD 1.5m Cable Vention CGYBG (Black)

Are you looking for a reliable DisplayPort cable? Choose Vention! It provides excellent image quality and stable transmission. Moreover, it demonstrates wide compatibility. See what Vention has to offer you!

Excellent Image Quality

The excellent image quality is one of the most important features of the Vention cable. Thanks to its ability to transmit image in 8K/60Hz resolution, it provides exceptionally vivid and realistic visual experiences. You can effortlessly display presentations from a laptop on a big screen, making it ideal for business meetings and multimedia presentations. Additionally, the built-in chip ensures stable image transmission, eliminating interference and guaranteeing excellent quality of the displayed material.

Wide Compatibility

The Vention cable is not only compatible with laptops from well-known brands, but also works perfectly with monitors, TVs, and projectors. This means that you can use it in various scenarios, both at work and for entertainment. Moreover, this versatile cable is compatible with various operating systems, including Mac OS and Windows 10/8/7/XP, allowing it to be seamlessly connected to many different devices, ensuring smooth and reliable communication in every situation.
