Household Tool Set 8 pcs Deli Tools EDL1008J

Ref: 6973107487309

Deli tool set

Deli set contains 8 tools that you are sure to use. Assembly of cabinets, kitchen accessories, lamps - in these and similar situations EDL1008J will come in handy. All elements of the set are placed in a practical case, which will make their storage simple and convenient. The set includes: a knife with adjustable blade length, 10 spare blades, a 3m long water and fire resistant insulation tape and a 2m long rolled measuring tape. The package also includes: 2 screwdrivers with a non-slip grip, stainless steel pliers, and a corrosion-resistant voltage tester for sockets with a voltage range of 100-500V.

Screwdrivers, pliers, voltage tester

The flathead screwdriver and Phillips screwdriver are made of durable materials. The matte handles are non-slip, which translates into comfortable use. A strong magnet placed at the end of the handle provides stability. The pliers are made of carbon steel type 45, and the PVC plastic handle prevents the tool from slipping from the hands and provides comfort in use. The hardness level of the pliers is 54-62HRC, guaranteeing precise cuts. The tester will allow you to check the voltage from 100-500V. It was made of material with a hardness level of 40Cr. The nickel-plated finish ensures durability and corrosion resistance. In addition, its use is simple and convenient.

Insulating tape and tape measure

The set includes insulating tape, which you will use, among other things, to connect cable ends. It is resistant to fire, moisture and wear.

Its length is 3m. In the package you will also find a 2m tape measure, which will come in handy every day for various measurements. Its retractable design makes it easy to store, carry and use.

Knife with breakable blade and spare blades

You will successfully use the knife for cutting paper, pipes, leather material or board. The ABS plastic finish and ergonomic design ensure comfort in use, while the durable SK5 blade guarantees precision. In addition, the knife is equipped with a special locking mechanism to avoid injury. It consists of 8 parts, so you can use it for a long time. All you have to do is break off a part of the blade at a designated point when it is no longer sharp. To avoid cuts, use the plastic guard, located at the end of the knife. If necessary, use the included carbon steel blades. The package contains 10 pieces of 15 parts each.
