USB-C to DisplayPort 8K HD 2m Vention CGYBH Black

Looking for a reliable DisplayPort cable? Choose Vention cable! It provides excellent image quality and stable transmission. What's more, it exhibits wide compatibility. See what Vention can offer you!

Excellent image quality

Excellent image quality is one of the most important features of the Vention cable. Thanks to its ability to transmit images at a resolution of 8K/60Hz, it enables exceptionally vivid and realistic visual experiences. With its help, you can easily display presentations from your laptop on a large screen, making it perfect for business meetings and multimedia presentations. Additionally, the built-in chip ensures stable image transmission, eliminating interference and ensuring excellent quality of the displayed material.

Wide compatibility

The Vention cable is not only compatible with well-known brand laptops but also works perfectly with monitors, televisions, and projectors. This means that you can use it in various scenarios, both for work and entertainment. Furthermore, this versatile cable is compatible with various operating systems, including Mac OS and Windows 10/8/7/XP, meaning you can effortlessly connect it to many different devices, ensuring smooth and reliable communication in any situation.
