

Cordless Vacuum cleaner Deerma VC20 Pro

Cordless Vacuum cleaner Deerma VC20 Pro

Ref: 6955578037290

Deerma VC20Pro 2-in-1 vacuum and mop

Keeping your floors clean has never been easier! The Deerma VC20Pro cordless vacuum with mop function features an improved brushless motor for enhanced performance, and can run for up to 50 minutes on a single charge thanks to its long-lasting battery. Suction power up to 17000Pa makes it excel at tackling even the most stubborn debris. Simple and convenient to use, you can also use it as a handheld vacuum cleaner. In addition, with the included interchangeable brushes you can thoroughly clean every corner.

Wash and vacuum floors at the same time

One appliance is all it takes to comprehensively clean your floors. The VC20Pro allows you to vacuum and mop different surfaces, or do both at the same time! This way, you can save a lot of time and energy. With the Deerma VC20Pro you can get your floors sparkling clean without much effort!

Before stains and bacteria

The water tank has a capacity of as much as 400ml. The VC20Pro is suitable for both small and large homes. You don't have to worry about spills. The water flow is continuously controlled so the level of humidity stays at an optimal level and the risk of leaks is reduced to a minimum. You can also add disinfectant to the tank to rid your floor of bacteria and other germs. Made of fiber, the mop absorbs water perfectly and provides a thorough, even cleaning.

Reliable vacuuming

The device is equipped with a powerful new generation brushless motor. This allowed to increase its power by up to 60% compared to the previous model, and the suction power by up to 110%. This, combined with the straight air duct, makes the VC20Pro a fantastic dirt cleaner. It instantly eliminates dust, crumbs, small debris, hair and even hair.

Perfectly designed floor brush

The electric floor brush lets you vacuum every nook and cranny. It rotates 180° and can be bent 90°, allowing you to clean under furniture or in corners with ease and precision. Equipped with soft bristles and a spiral scraper - thoroughly picks up all debris, cleaning every inch of the floor. The brush is designed to prevent hair from getting tangled in it - no more wasting precious minutes cleaning it!

Completely keep things tidy with the extra brushes included

The set also includes other equally useful brushes. The 2-in-1 crevice brush allows you to vacuum narrow places such as chair recesses. It also allows you to thoroughly clean uneven surfaces - like your laptop keyboard. The small triangular brush is suitable for cleaning different types of furniture and materials. The small triangular brush is suitable for cleaning different types of furniture and materials, such as sofas, beds and table tops.

Vacuum for as long as you need

Vacuum without interruptions. The VC20Pro has up to 50 minutes of battery life! So you can clean your whole house thoroughly. What else makes it so powerful? The advanced BMS battery management system extends battery life and ensures optimal performance.

Breathe clean air

Turn your home into a clean, health-friendly place with the VC20Pro. An efficient filtration system makes it possible. It includes a HEPA filter which traps even the finest dust particles. A special, microporous cyclonic chamber is responsible for strengthening its action. Waste is directed into the 0.6l tank equipped with a cyclonic filter. Emptying it is very easy. Simply unscrew it and throw the waste into the garbage can! Both the filter elements and the dust container can be washed under running water. With Deerma you will take care not only of tidiness, but also of your health!

Designed for your convenience

Vacuuming can be fun! The VC20Pro doesn't weigh much, so you can easily pick it up and vacuum ceilings or shelves. You don't even have to bend down to remove the water tank! Just press the easy-to-reach foot switch. You can also transform it into a handheld vacuum with great ease. The cordless design of the VC20Pro makes it easy to use wherever you want: on the floor, in the garage, even in the car! Nothing will limit your freedom of movement.

Recent design

What else sets the VC20Pro apart? The one-of-a-kind, eye-catching, modern style! The combination of black and navy blue gives the device an extremely elegant character, which is further emphasized by the rose gold details. The unique design of this vacuum cleaner has been recognized by the Red Dot Design Award and the K-Design Award, and now it can decorate your home too!
