Vention 3.5mm Male to 3.5mm Female Mini Jack Cable 1m

The Vention 3.5mm mini jack cable (BHCBF) combines technology with practical design. Its sturdy construction ensures durability, while high-quality materials guarantee pure sound quality. Features such as microphone control support and thoughtful design make it the perfect choice for anyone who values convenience and quality.

Durable Interface Housing

The key to the longevity of any cable is its resistance to everyday use. The Vention BHCBF cable features an interface housing made of aluminum. This material choice not only provides an aesthetic appearance but also significantly increases the cable's durability, preventing it from breaking. This is especially important for those who frequently use portable devices.

High-Quality Sound

The Vention BHCBF cable guarantees high-quality sound transmission. Whether you're listening to music, podcasts, or having a phone conversation, you can count on clear and crisp sound.

Microphone Control Support

Headphone users will appreciate the built-in microphone control support. Thanks to this feature, the Vention BHCBF cable allows not only

listening but also conducting conversations using the microphone in the headphones, without the need for additional accessories.

Thoughtful Design

The key element of the Vention BHCBF cable is its design. The cable consists of an enameled copper core, an outer TPE jacket, and a cotton braid. This combination of materials ensures not only excellent conductivity but also additional resistance to mechanical damage. Small details make a difference. The male plug of the Vention BHCBF cable has a special "step" that allows you to connect it to the phone without removing the case. This makes it quick and easy to connect the cable without worrying about compatibility with various device cases.
