Vention 3.5mm Male to 3.5mm Female Mini Jack Cable 1,5m

The Vention 3.5mm mini jack cable (BHCBG) combines technology with practical design. Its sturdy construction ensures long-lasting durability, while high-quality materials guarantee clear sound. Features such as microphone control support and well-thought-out design make it the perfect choice for anyone who values convenience and quality.

Durable Interface Housing

The key to the longevity of any cable is its resistance to everyday use. The Vention BHCBG cable has an interface housing made of aluminum. This material choice not only provides an aesthetic appearance but also significantly increases the cable's durability, preventing it from breaking. This is especially important for people who frequently use portable devices.

High-Quality Sound

The Vention BHCBG cable guarantees high-quality sound transmission. Whether you are listening to music, podcasts, or making a phone call, you can rely on clear and crisp audio.

Microphone Control Support

Headphone users will appreciate the built-in microphone control support. This allows the Vention BHCBG cable not only for listening but

also for conducting conversations using the headphone microphone, without the need for additional accessories.

Thoughtful Construction

The key element of the Vention BHCBG cable is its construction. The cable consists of an enameled copper core, a TPE outer shell, and a cotton braid. This combination of materials ensures not only excellent conductivity but also additional resistance to mechanical damage. Small details make a difference. The male plug of the Vention BHCBG cable has a special "step" that allows you to connect it to your phone without removing the case. This makes it quick and easy to connect the cable without worrying about compatibility with various device cases.
