QCY H3 Wireless Headphones (black)

QCY H3 are wireless headphones that will bring your favorite music to life! Hi-Res audio certification confirms excellent sound reproduction, guaranteeing you complete satisfaction with every note. Thanks to 3 microphones with VDCNN algorithm, you can make phone calls even in noisy environments, and ANC technology will immerse you in the music, eliminating annoying noises. You can successfully connect them to 2 devices simultaneously. Their operating time reaches up to 60 hours on a single charge, and the ergonomic design ensures maximum comfort.

Sound of the highest quality

Get carried away by the music with the QCY H3! Featuring dynamic 40mm drivers, the headphones deliver sound of incredible quality. Clear treble, deep bass and incredible richness of detail will make your music sound better than ever before. The QCY H3 are also Hi-Res Audio certified, which means they deliver studio-quality sound.

Innovative technology

QCY headphones are designed to meet a variety of user needs. Thanks to QCY H3's advanced adaptive technology, they can adapt to the structure of your ear and the way you wear them. The headphones then create optimal noise cancellation and correct the sound curve, delivering sound tailored to your individual needs.

You decide what you hear

Focus on what matters most. QCY H3 support hybrid noise cancellation technology that effectively mutes ambient noise by 43 dB, allowing you to immerse yourself in the sounds of your favorite music. There are up to 4 ANC modes at your disposal, which vary in the degree of ambient muting. Among them, you'll find a Wind Reduction mode, which is ideal for walking or biking, and Transparency mode, which allows you to stay in touch with your surroundings without having to take off your headphones.

Talk without interference wherever you are

Shopping in a crowded mall? Or waiting for your train at the train station? Now you can talk freely on the phone in any of these places! The QCY H3 headphones feature up to 3 built-in microphones, backed by an advanced VDCNN algorithm that automatically adjusts noise cancellation levels. This means your words will be accurately recorded, no matter what environment you're in.

Listen all day long

With QCY H3, your favorite tunes will accompany you even for days! The headphones allow you to enjoy an extremely long operating time! With ANC mode on, they can play music for 35 hours, and with ANC mode off, their runtime increases to as much as 60 hours. After just about 2 hours of charging, I will be ready to work again!

Fast and reliable - Bluetooth 5.3 connection

Enjoy fantastic sound without lag, whether you're playing games, watching movies or listening to music. The headphones use the latest Bluetooth 5.3 chip, which guarantees a fast, stable connection with a range of 10 meters. What's more, in gaming mode, latency is reduced to just 0.068 seconds, resulting in perfect audio and video synchronization.

Designed with your comfort in mind

Listen to music for hours without worrying about discomfort! The earcups made of high-quality synthetic protein leather fit perfectly to your ears without exerting unpleasant pressure. In addition, the built-in buttons will allow you to conveniently control your music player, calls or volume, which makes using the QCY H3 even more enjoyable.

Additional capabilities with the app

Discover all the features of the headphones with the QCY app! You can find it in both the Google Play store and the App Store. With it, you can adjust the sound settings for any type of music, check the battery charge status, locate your headphones or choose from available ANC modes.
