

Set of 6 Filters Bright Day Freewell for DJI Mini 4 Pro

Ref: 6972971864575

Set of 6 Filters Bright Day Freewell for DJI Mini 4 Pro

Set of 6 Filters Bright Day Freewell for DJI Mini 4 Pro

The Freewell Bright Day filters are the perfect solution for owners of DJI Mini 4 Pro drones who want to achieve excellent photos and videos in various lighting conditions. The set includes six filters: ND16/PL, ND32/PL, ND64/PL, ND128/PL, ND256/PL, and ND1000/PL, which ensure excellent image quality even in strong sunlight. ND/PL filters combine the features of ND (neutral density) and PL (polarizing) filters. ND filters allow you to control the amount of light reaching the camera sensor, enabling you to create a blur effect for moving objects, while PL filters eliminate reflections and enhance color saturation. By combining these features, Freewell Bright Day filters provide excellent image quality in all lighting conditions.

Included in the set

Filters (ND16/PL, ND32/PL, ND64/PL, ND128/PL, ND256/PL, ND1000/PL)

Case

Manufacturer
