

Insta360 X3 Invisible Dive Case

Insta360 X3 Invisible Dive Case

Ref: 6970357855810

Insta360 X3 waterproof camera housing

Do you dream of exploring the underwater depths? The Insta360 waterproof housing will definitely come in handy for you! It was created with the Insta360 X3 sports camera in mind. It is distinguished by its IPX8 water resistance, so you can immerse it to a depth of up to 50 meters without any problems.

Stunning underwater shots

The housing with a special dome compensates for light refraction in the water, preventing any distortion. Whether you're exploring coral reefs, mysterious caves or marine life, your underwater photos and videos will be stunning in quality and detail. What's more, the housing becomes completely invisible in 360-degree shots. For even better results, you can use it in conjunction with the Invisible Selfie Stick for spectacular third-person perspective shots.
