GameSir T3s Wireless Controller (Black)

The GameSir T3s wireless controller is compatible with multiple platforms and allows for seamless switching between wired and wireless modes. A single charge provides up to 25 hours of gameplay. With customizable control configuration, you can easily tailor its performance to your preferences for an exceptional gaming experience.

Play on Various Platforms

The GameSir T3s controller enables gaming on multiple platforms. It is compatible with desktop computers, Android TV/TV boxes, Nintendo Switch consoles, iOS systems, as well as Android-based phones and tablets. On smaller devices like phones and tablets, the T3s ensures comfortable gameplay without the hassle of unintuitive touch controls. Additionally, you can run MFi and Apple Arcade on iOS devices. Choose GameSir's offering and experience limitless possibilities!

Wireless or Wired Operation

The T3s model is adapted for both wireless and wired gaming. Choose wireless freedom to enjoy gaming on large screens or switch to wired mode. The device is equipped with a 600mAh lithium-ion battery that provides up to 25 hours of usage, eliminating the need for frequent charging.

Customize to Your Needs

Personalize the T3s' performance. Linear responsive buttons allow for precise control of speed and attack force in the game, depending on the pressure applied. The controller also offers 4 levels of vibration intensity, 8 programmable buttons, and a Turbo function with 4 available speeds.
