

## Portable Monitor Mobile Pixels Glance 15,6"

Portable Monitor Mobile Pixels Glance 15,6"

Ref: 850001446563

### Mobile Pixels Glance 15,6" portable monitor

Enjoy an additional monitor and make your work easier. The Mobile Pixels Glance portable monitor is equipped with a 15,6" FHD display that will let you enjoy vivid, crisp colors. The device is distinguished by its wide compatibility and offers a practical folding stand so you can place it in any position - either horizontally or vertically. Also noteworthy are the built-in speakers.

### High image quality

With Mobile Pixels you can comfortably work, watch movies, edit videos or edit photos. The Glance monitor offers a large 15,6" display that provides a richly detailed image at 1920x1080 resolution. It also guarantees vivid, natural colors. It also features a brightness of 250 nits and a refresh rate of 60Hz. The screen has also been treated with a special anti-glare treatment, so it does not tire the eyes and provides greater comfort while working.

### Compatible

Don't worry about compatibility issues. The Mobile Pixels Glance monitor works perfectly with devices running on Windows and macOS. Moreover, thanks to Plug&Play technology, you don't have to waste time on complicated configuration or installation of additional drivers - just plug the device into your laptop. Say goodbye to limitations and increase the efficiency of your work!

### Lightweight, foldable design

Take the monitor to work, on a trip or to the library. The device is very light and handy - it weighs only 945g. It has also been equipped with a folding stand, the position of which can be adjusted within 180°. This makes it easy to position the monitor horizontally or even vertically! What's more, when the stand is folded, the product takes up so little space that you can easily fit it in your backpack or laptop bag.

### Even more amenities

The monitor is equipped with 2 speakers of 1W each. This makes it great for watching TV series, for example, or you can comfortably listen to music while editing photos or videos. You also get an OSD menu and several ports, including HDMI 2.1, DP 1.4, USB-C and audio output. Connect your headphones to the monitor and let your favorite songs make your work more enjoyable!
