Smartwatch Colmi C81 (Black)

Select the Colmi C81 and gain access to essential features. The smartwatch provides HD quality visuals with its AMOLED display and allows convenient call handling. It collaborates with AI voice assistants, enabling quick and hassle-free access to your preferred watch functions. Offering over 100 sports modes, it enhances your workout efficiency. Furthermore, it monitors heart rate and sleep, and lasts up to 7 days on a single charge. Discover what else it has to offer!

### 2.0" AMOLED Display

The Colmi C81 features a large 2.0-inch AMOLED display, making it easy to read messages and customize settings. Additionally, the screen resolution is 410 x 502 px, providing sharp HD images and vibrant colors. Enjoy clear and convenient access to notifications with the intelligent Colmi watch.

### Convenient Call Handling

You no longer need to reach for your smartphone to manage incoming calls. The Colmi C81 allows you to receive and make calls. It also provides access to call logs. The smartwatch offers HD-quality phone conversations for added convenience. Now you can talk to your loved ones during workouts or on your way to work without using your smartphone.

### Voice Command Support

Need to make a quick call to a loved one? Colmi C81 has got you covered! The device collaborates with AI voice assistants, making it as simple as issuing a voice command to access your preferred watch function. See how easy it is!

### Customized for User Preferences

Further personalize your smartwatch to your liking. Colmi C81 offers various watch face designs to customize the look of your smartwatch. You can also upload your chosen photo. Additionally, several menu styles are available, allowing you to choose the one that suits you best. Moreover, the watch screen turns on when you raise your wrist, making it easy to check the time or weather forecast quickly.

### Over 100 Sports Modes to Choose From

Want to plan your workouts even better? Colmi C81 can help with that! The smartwatch utilizes intelligent algorithms to monitor heart rate, calorie burn, and exercise time, making your workouts more effective, and helping you achieve your desired results faster. You can also check the workout history from the last 7 days. The intelligent watch offers sports modes such as running, climbing, jumping rope, basketball, walking, badminton, cycling, and soccer. To access additional modes, download the FitCloudPro app.

### Promotes Health

The smartwatch is equipped with an optical sensor that automatically generates heart rate data every 30 minutes. It will also notify you of any concerning symptoms, allowing you to react quickly. Additionally, it measures SpO2, so you can check your blood oxygen level at any time. Furthermore, it monitors sleep and records its phases, making it easier to eliminate bad habits.

### Durable Construction

The smartwatch is well-suited for everyday use. It is water and sweat-resistant with an IP68 rating, so you can confidently take it to your workouts. It can withstand rain as well. The use of aluminum alloy contributes to durability, and the robust glass prevents screen cracking. Additionally, the silicone strap is comfortable to touch and gentle on the skin.

### Additional Features

Colmi C81 can serve as your daily assistant. It will keep you informed of new notifications, ensuring you don't miss important information. Furthermore, it allows you to check the weather forecast, remotely take photos, and manage your music player. In addition, it will remind you to stay hydrated and change positions if you sit for too long. The 250 mAh lithium-polymer battery provides long-lasting smartwatch usage. It works for up to 7 days on a single charge for daily use and stays on standby for approximately 30 days. You can recharge it in about 2 hours using the included cable.
