Slow Juicer AMZCHEF 3001-GA (Grey)

Meet the AMZCHEF 3001-GA slow-speed juicer - an innovative device that will change the way you prepare juices and other foods in your kitchen. Designed for health, versatility and ease of use, it is ideal for anyone who values the highest quality nutrients in their diet. Equipped with 150 watts of power, 90-110 rpm speed and a range of functions, it is not only powerful, but also extremely quiet and easy to use.

Juices full of vitamins

The AMZCHEF 3001-GA slow-speed juicer is a unique device that extracts the maximum amount of nutrients from fruits and vegetables. Thanks to its low speed (90-110 rpm), it squeezes juice more slowly than traditional juicers, which preserves more vitamins, enzymes and other nutritional values, yielding juices that are healthier and fuller in flavor.

Smart LED panel and two operation modes

Equipped with a smart LED panel, the AMZCHEF 3001-GA juicer offers two modes - 'Soft' for soft fruits and vegetables (50-60 rpm) and 'Hard' for harder produce. This allows you to adjust the speed according to the type of ingredients you are processing, guaranteeing optimal squeezing efficiency.

#### Versatile 4-in-1 application

The AMZCHEF 3001-GA is a 4-in-1 appliance - if you want, you can buy additional components so that the juicer can turn into a vegetable grater, meat grinder and sausage stuffer at any time. Thus, when you buy a juicer, you get a versatile helper in the kitchen, allowing you to prepare a variety of dishes and snacks.

#### Quiet operation and ease of use

Thanks to its quiet operation (less than 60 dB), the AMZCHEF 3001-GA juicer does not disturb your kitchen. You can prepare nutritious juices while your child naps without worrying that the noise will wake them up. The device is also easy to use, ensuring that your drinks will be ready quickly and without problems.

#### Eco-friendly solution and easy cleaning

Bet on recycling! The leftover pulp can be used as plant nutrients, which is an eco-friendly solution for your home. In addition, the juicer is easy to clean, and its non-slip pads provide stability during use to avoid spilling the contents.

#### With comfort in mind

You'll find a portable bottle included, making it easy to store and transport your freshly squeezed juices. This is ideal for those who value a healthy lifestyle and like to have nutritious juices on hand.
