Induction Cooker AMZCHEF IRC119

Ref: 0756557749144

AMZCHEF induction stove IRC119

The AMZCHEF stove is a modern appliance that will become the centerpiece of any small kitchen. With two induction zones and high power, it offers versatility and cooking comfort along with high efficiency. It is ideal for modern households where functionality and space saving are important.

The ideal solution for demanding cooks

The AMZCHEF IRC119 is the ideal choice for those who appreciate speed, efficiency and versatility in the kitchen. Whether you're an experienced cook or just starting out on your culinary adventure, this induction stove will provide you with everything you need to prepare exceptional dishes.

Exceptional power and total control

With a total power output of 3300 watts, the AMZCHEF IRC119 allows you to cook quickly and precisely. With 10 power levels (from 500 to 1,800 watts), you can precisely adjust the temperature to suit your needs, allowing you to cook anything from gently braised vegetables to well-fried, juicy steaks.

Thoughtful design and easy operation

The stove measures 300 x 520 x 72 mm, making it compact and easy to integrate into any kitchen space. The black polished crystal glass not only adds elegance and modern style, but is also easy to clean and scratch-resistant. In addition, touch-sensitive buttons are responsible for operating the stove, which makes controlling the food being prepared simple and intuitive.

Energy efficiency and safe cooking

The stove is designed for wide compatibility with different power systems. This means that it can be used seamlessly in most homes and apartments where the standard mains voltage is in the 220-240V range. The ability to operate at both 50 Hz and 60 Hz provides additional flexibility, allowing the stove to be used in different regions without worrying about incompatibility with local power standards. This makes the AMZCHEF IRC119 not only efficient and versatile, but also reliable and safe to use,

Advanced cooling system

A unique feature of this stove is its enhanced cooling system with two powerful fans. They ensure efficient heat dissipation, which increases the safety of use and prolongs the life of the device.

Manufacturer

AMZCHEF

Model

FS-IRC119
