

Camera Akaso EK7000 Pro

Camera Akaso EK7000 Pro

Ref: 818537027816

Akaso EK7000 Pro sports camera

Do you need a camera that will allow you to get high-quality, dynamic recordings and sharp images? Akaso EK7000 Pro is just for you! The device records video in 4K/25FPS and has a number of functional modes. You'll also find a waterproof case and a remote control, so you can feel the real comfort of operation.

Top quality

The camera offers 4K/25FPS video quality and up to 20MP photos. This ensures sharp, detailed shots that will take you back to your most beautiful memories. When you choose Akaso, you choose the best!

Multiple modes available

The device provides access to a number of functional modes, so you can tailor its operation to your specific requirements and circumstances. Do you want to record a timelapse, loop or take a sequence of continuous shots? Just choose a specific setting! What's more, the EK7000 Pro offers a 3-position registration angle adjustment - a maximum of 170°.

Thoughtful design

Included with the camera you will receive a special waterproof case, so you can take the camera on a diving session - up to 40 meters

deep. A waterproof remote control with a wrist band will allow you to operate it conveniently without the interface of the device itself. The kit also includes a variety of practical mounts that expand the mounting possibilities of the equipment.

Everything at hand

If you want easy access to your recorded footage, install the AKASO GO app. You can share your shots via Wi-Fi and manage them via your smartphone or tablet.
