Air Fryer LEACCO AF010

Discover the Air Fryer Leacco AF010, a revolutionary appliance that will help you prepare healthy meals! It uses hot air circulation and offers up to 7 different programs, including baking and frying. The 3.5-liter capacity allows you to prepare food for the whole family. It allows you to adjust the temperature from 40°C to 200°C, and its power reaches 1200 watts. The built-in display will make it easy for you to operate the device, and the automatic shut-off function ensures safety.

Healthy cooking has never been so easy

The Air Fryer Leacco will make your favorite dishes even tastier and healthier than ever before. Thanks to the hot air circulation technology, your food will be much healthier without losing its natural crispness and juiciness, and what's more, it will contain less fat. The appliance offers up to 7 operating modes, giving you unlimited culinary possibilities. Bake, grill, fry and even prepare desserts - all in one appliance.

Convenient operation

Operation of the appliance is extremely simple, so even novice users can easily handle it. The built-in touchscreen display will make it easy for you to access the most important functions. From it you can conveniently set the temperature and cooking time, as well as choose from the available modes.

Fast and safe

With the ability to adjust the temperature from 40°C to 200°C, you can easily adjust the optimal cooking parameters for any recipe. With a capacity of 3.5 liters, you'll be able to prepare delicious dishes for the whole family in one cook. You will easily keep it clean - the basket can be washed under running water without any problems. You also don't have to worry about safety - the Air Fryer has an automatic shut-off function in case of overheating or removal of the basket.
