

## Smart temperature and humidity sensor Sonoff Zigbee SNZB-02

Ref: 6920075776102

Smart temperature and humidity sensor Sonoff Zigbee SNZB-02

### Smart sensor Sonoff

Sonoff SNZB-02 is ZigBee a temperature and humidity sensor that can work seamlessly with SONOFF ZigBee Bridge to track changes in temperature and humidity in your home, and all readings can be checked in real time on eWeLink.

### Increase the level of comfort in your apartment

To ensure the ideal temperature and humidity in the apartment, it is enough to turn on the sensor that starts the fan when the room temperature is 28°C, the cleaner will automatically start working when the air humidity is below 45%RH.

### Trouble-free installation

The mounting tape on the back of the sensor is strong and flexible, allowing for easy and quick installation on any surface of the room.

### Low battery indicator

The application sends out notifications about low sensor battery level (10%). You don't have to worry about the low battery level of your device - you'll always be up to date with the app.

### Sharing function

The sensor can be shared with the family, so they can check the temperature and humidity of the room on their phones without the need to pair the devices.

Model  
SNZB-02  
Battery  
3V (CR2450)  
WiFi  
IEEE 802.15.4  
Material  
PC V0  
Dimensions  
43 mm x 43 mm x 14 mm  
Operating temperature range  
-10 ° C ~40 ° C
