Headphones Edifier HECATE GM5 (silver)

Edifier brand headphones with Qualcomm chipset and Bluetooth 5.2 allow you to connect with your mobile device at the highest level. Ambient noise cancellation and dual microphone will take your gameplay to the next level. They are distinguished by their original design and high quality workmanship.

Superior chipset

Qualcomm's chipset is an advanced technology that, when combined with Bluetooth V5.2, the headphones provide top-level sound and a fast, wireless connection.

Quick and easy mode change

With easy control, you can freely choose between one or two headphones at the same time.

Capacious batteries

Thanks to capacious batteries, you can enjoy your headphones for 8h on a single charge and for another 32h with the case. Listen to your favorite music and don't worry about constant charging.

Crystal clear sounds

Thanks to the call noise cancellation app, you can enjoy crystal clear sounds without any distractions.

Impressive diaphragms

The built-in 12mm diaphragm driver delivers up to 98dB. These small headphones have great power!
