LEACCO 5.5L 1350W AF018 Oil-Free Fryer

The LEACCO AF018 Oil-Free Fryer is an excellent solution for health-conscious cooking enthusiasts. With a large 5.5-liter capacity and 1350W power, this device not only ensures efficiency but also versatility in preparing your favorite dishes. Equipped with modern technologies such as 3D hot air circulation and 360° view, it guarantees excellent results with minimal use of oil. Additionally, easy cleaning and intuitive operation make it ideal for any kitchen.

3D Hot Air Circulation

The LEACCO AF018 Fryer features 3D hot air circulation technology. This allows for even cooking of dishes, providing crispiness on the outside while preserving tenderness on the inside. This feature makes every dish not only delicious but also healthy by reducing the need for additional oil.

Transparency and Control

With the 360° view feature, users have the ability to monitor their food from all angles without the need to open the device. This not only makes monitoring the cooking process easier but also prevents heat loss, which is crucial for achieving optimal results.

Easy Cleaning and Safety

The borosilicate glass basket is not only safe for food but also easy to clean. Dishwasher compatibility and an anti-slip stable base further enhance the convenience of using the fryer.

Pre-set Programs and DIY Mode

The LEACCO AF018 Fryer offers six pre-set programs for various types of dishes, including shrimp, steaks, fries, wings, fish, and more. The device also provides a manual mode (DIY) for individual preferences, allowing experimentation with different recipes while ensuring ease and intuitiveness of use.

Innovative Design and Functionality

The device stands out with its modern design and intuitive control buttons, making it easy to use various functions. The special grill rack construction and heat-resistant basket handle provide additional functionality and safety during use.
