Aukey EP-M1S TWS wireless headphones (black)

Ready for an unforgettable music experience? The Aukey EP-M1S headphones will help you discover your favourite music all over again! Equipped with 10-millimetre drivers, they deliver richly detailed sound. Bluetooth 5.1 technology guarantees a stable and fast connection, no matter where you are. They can play music for up to 28 hours with the charging case, and with IPX5 waterproof certification, you can use them in almost any situation without worry.

Stunning sound quality

Get swept away by the music with Aukey headphones! They're equipped with 10mm drivers that deliver detail-saturated sound and strong, powerful bass. Whatever genre of music you love, the headphones will transport you into a musical world where every note sounds perfect.

Keep the music going

No more worrying about your headphones unexpectedly discharging during a long journey! The Aukey EP-M1S can play music for up to 7 hours on a single charge. You'll find a charging case included to extend their runtime by an additional 21 hours. This means your music can accompany you for up to 28 hours!

Intuitive touchpads

From now on, controlling your music or calls will be even easier. The headphones have built-in touch panels that will give you access to the most important functions of the headphones. You can use them to manage incoming calls, control the music player or activate the voice assistant. Everything you need is literally at your fingertips.

Ready for any adventure

Their ergonomic design means they fit perfectly in your ears, ensuring comfort even when worn for long hours. They weigh just 4g per earphone, making them almost imperceptible to wear. They are also IPX5 waterproof certified, meaning they are sweat and rain resistant, so they can accompany you even during intense training or outdoor activities.
