Smartwatch Aukey SW-1S (black)

The Aukey SW-1S smartwatch is the perfect everyday companion. It features a clear 1.69-inch display that will allow you to read messages and use all functions comfortably. Its operating time reaches up to 12 days on a single charge. It offers more than 30 sports modes, precise health monitoring, including heart rate and blood oxygen intensity, and sleep monitoring. It also provides notifications from your favourite social media apps and allows you to make phone calls

### 1.69" display

Operating your smartwatch will be made easier with the large 1.69" display, which is made of rounded 2.5D glass. You can also choose from more than 300 available dial designs, making it easy to customise the look of the smartwatch to suit your preferences.

### Stay in shape

The Aukey SW-1S is a true companion for an active lifestyle. It offers more than 30 different sports modes that allow you to precisely track and analyse your workouts. Whether you're a fan of running, cycling or climbing, the smartwatch will help you continuously improve your skills and achieve better and better results. Choose your favourite sport or try something new - the decision is yours!

### Track your health

Now you can understand your body better and make more informed decisions about your health. The smartwatch is equipped with precise sensors and advanced algorithms to monitor your heart rate and blood oxygen intensity throughout the day. There is also a sleep monitoring function so you can track the quality and timing of your sleep. With this information, you can improve the quality of your sleep, resulting in better mood and performance throughout the day.

All notifications on your wrist

From now on, you won't miss any important messages! The smartwatch keeps you informed of notifications from apps such as Facebook, Instagram or Messenger. However, that's not all! The built-in microphone and speaker allow you to make phone calls without having to take your phone out of your pocket - just pair your smartphone with the smartwatch via Bluetooth.
