TSW Haylou X1 Neo Headphones

Are you looking for versatile headphones that will provide you with high quality sound and perform well during gameplay? Opt for the Haylou X1 Neo! Dynamic 13mm drivers will let you enjoy fantastic sound, and a special gaming mode guarantees ultra-low latency of only about 0.06 seconds. The headphones are also distinguished by a long operating time and a stylish yet ergonomic design.

Top-class sound

Experience how good the songs you love can sound. The headphones are equipped with dynamic 13mm drivers that will give you fantastic sound quality, rich detail and perfect harmony. They offer enhanced, deep bass and clear, ear-pleasing treble and midrange. So you can discover the magic of music all over again!

Bluetooth 5.3

Say goodbye to signal quality problems. The headphones use advanced Bluetooth 5.3 technology, which provides an incredibly fast and stable connection, lower latency, lower power consumption and high immunity to interference. What's more, the X1 Neo supports both Mono and Stereo modes. So you are free to use both headphones at the same time or just one!

Long runtime

Listen to music for as long as you want. Thanks to long-lasting batteries, the headphones can run for up to 5 hours on a single charge. What's more, the included case lets you extend that time to about 20 hours. That's long enough to watch about 3,600 short videos, listen to about 300 songs or watch about 10 movies! Convenient charging of the headphones is made possible by the included USB-C cable.

Refined in every detail

The headphones look really great and are extremely comfortable. They fit fantastically in the ears, and each one weighs only about 3.87g. So you can enjoy the comfort of your dreams - even during prolonged use. The X1 Neo also feature IPX4 water resistance - sweat and rain are no threat to them. What's more, the earphone case is distinguished by its stylish matte texture and translucent cover.

Something special for gamers

The manufacturer has also prepared something special for gaming enthusiasts. Simply press and hold the touch panel of any headphone to switch to a special gaming mode, which provides an ultra-low latency of about 0.06 seconds. This makes the X1 Neo perfect for even the most dynamic gameplay. Don't let your opponent surprise you and get another great victory!

Convenient touch control

Enjoy comfortable operation of your headphones - with Haylou everything you need is at your fingertips! The X1 Neo are equipped with convenient-to-use touch panels that will allow you to quickly pause or resume playback, answer a phone call or reject a call, hang up, switch a song and turn on gaming mode, among other things. No more searching for your smartphone every time!
