Haylou S35 ANC wireless headphones (black)

Discover the magic of music all over again with the Haylou S35! The headphones are equipped with dynamic 40mm drivers and are Hi-Res certified, which means they deliver the highest quality sound. The Bluetooth 5.2 module is responsible for instant connection to the device of your choice, and the powerful battery allows up to 60 hours of use. They also support ANC noise cancellation technology, which eliminates sounds up to -42 dB, and built-in microphones allow you to make phone calls. Side buttons make it easy for you to access the most important functions.

Let yourself be amazed by the sound quality

Whether you're listening to your favorite tunes, podcasts or watching movies, the Haylou S35 headphones will deliver an exceptional listening experience. The 40-millimeter dynamic drivers provide faithful reproduction of high, mid and low tones, as well as clear, natural and detailed sound. The headphones have also been awarded Hi-Res certification.

Forget about the world around you

Put on the headphones and focus on the beauty of the songs being played! The Haylou S35 use innovative ANC noise cancellation technology, which effectively eliminates ambient sounds up to -42 dB. This allows you to fully immerse yourself in the sounds of your favorite tunes. Prefer to stay in touch with the world? Choose Transparent mode - you don't even have to take off your headphones to

hear what the other person is saying!

Discover a new level of comfort

Enjoy unparalleled comfort! The headphones feature large soft foam earcups that fit perfectly in your ears without uncomfortable pressure. Thanks to the adjustable headband, you can easily adjust their size to your needs, and the foldable design makes them easy to store. The Haylou S35 also impress with their minimalist, stylish design.

Made for conversations

A crowded bus, train station, or maybe a shopping mall? Now you can freely talk on the phone in any place! The headphones are equipped with 5 microphones that accurately record your voice. They also use ENC technology, which reliably removes ambient noise. You can be sure that your caller will hear everything you have to say!

Up to 60 hours of operation

Going on a long trip? Take the headphones with you and listen to music for as long as you want! The built-in 600 mAh battery provides up to 60 hours of use when ANC mode is off or up to 40 hours when it's on. This gives you the freedom to play your favorite songs all day long.

Additional capabilities with the app

Want to gain access to other interesting features of the headphones? Download a dedicated app to your smartphone! With it, you can check the charge status at any time, change modes or choose from the available EQ settings to adjust the sound of the headphones to your preferences. Boost the bass, emphasize the mids or experiment with other settings to get the perfect sound!

Wireless connection

Interference, delays and other connection problems are a thing of the past. The headphones use advanced Bluetooth 5.2 technology, which is responsible for a fast, stable and reliable connection with a range of up to 10 meters. What's more, you can connect them to 2 devices at the same time for even more convenience. Haylou S35 also offers a special game mode that guarantees ultra-low latency - now no opponent will miss your attention!
