Earbuds TWS Haylou X1 2023 (blue)

Ref: 6971664934014

### Haylou X1 2023 Headphones (blue)

Meet the Haylou X1 2023 wireless headphones. Equipped with 12-millimeter dynamic drivers, they'll make you feel like you're at a live concert! Using the ENC noise cancellation system, they guarantee crystal-clear conversations, and thanks to their well-thought-out design, they lie perfectly in the ear for long-lasting comfort. Bluetooth version 5.3 is responsible for a stable connection and ultra-low latency, making them ideal for gamers and video fans as well. The long operating time, touch-sensitive operation and IPX4 water resistance make using the X1 2023 headphones smooth, enjoyable and hassle-free.

### The sound you deserve

Listen to your favorite tunes in exceptional quality! Dynamic 12-millimeter drivers will give you the best experience - thanks to the hydrodynamic air hole design, you can enjoy natural sound full of details. What's more, thanks to the titanium diaphragm, the sound is perfectly balanced, so whenever you turn on the music, you'll be carried away by powerful bass and crystal clear treble.

### Reliable wireless connection

With Haylou headphones, you gain complete freedom to listen to music, podcasts, or audiobooks. Bluetooth version 5.3 is responsible for a stable connection with lower power consumption, providing an uninterrupted signal over a distance of up to 10 meters! X1 2023 once paired with the selected device, connect to it automatically. Simply open the case and use the headphones without additional

operations!

#### Long working time

You don't have to worry about the headphones refusing to serve you in the middle of an interesting podcast. The X1 2023's operating time is about 5.5 hours, and it only takes about 1.5 hours to fully charge them. Included with the headphones you get a 300 mAh charging case, with which you gain another hours full of musical experience! You can top up the case's energy with a USB-C cable (also included).

#### Created with comfort in mind

The sleek design of the X1 2023 wireless headphones is the first thing that catches your eye when you pick them up. However, looks aren't everything, which is why Haylou focuses on your comfort! The half-over-ear design with a 60° angle fits perfectly in the ear canal, providing exceptional comfort during their use.

#### Ideal for gamers

Extremely low latency also makes the headphones ideal for gaming and movie watching, guaranteeing perfect synchronization of sound and picture. The X1 2023 will allow you to fully immerse yourself with crystal clear sound of footsteps, gunshots and other special effects.

#### Free phone conversations

The ENC noise cancellation system used by the headphones, combined with precision microphones, provide extremely clear and relaxed phone conversations. They effectively filter out background sounds, allowing your caller to hear clearly everything you have to say!

#### Easy and smooth operation

The headphones feature a precision touch panel, so you don't have to take your phone out of your pocket when you want to handle an incoming call or the music player! With just a few touches, you can stop/resume music, answer your phone or turn on gaming mode.

#### More possibilities with the app

The dedicated HAYLOU Sound APP opens up even more options for you. From your phone, you can customize the headphones to your preferences - after all, you know them best! Personalize the headphone name for your Bluetooth connection and experiment with EQ settings. You can also easily check the charge level of your headphones in the app.
