Koorui Gaming Monitor 34E6UC 34" 3840x1440px 165Hz

Koorui 34E6UC 34" 3840x1440px 165Hz gaming monitor

Discover a new dimension of gaming with the Koorui 34E6UC! The 34" gaming monitor provides a resolution of 3840 x 1440 pixels, which, combined with VA technology, will allow you to enjoy sharp and realistic images. The 21:9 aspect ratio guarantees a wide field of view, while the refresh rate of 165 Hz ensures smoothness even in the most dynamic scenes. Thanks to the many available ports, you'll be able to connect your laptop, Xbox/PS4 console or camera without any trouble.

Superior gameplay

The Koorui 34E6UC monitor is a real treat for demanding gamers. The refresh rate of 165 Hz along with the fast response time of 1 ms MPPRT will ensure incredible smoothness of the image, which is crucial when playing dynamic action or racing games. Thanks to AMD FreeSync Premium technology, the monitor perfectly synchronizes image frames with the graphics card, eliminating screen tearing and minimizing lag.

Even better image quality

The Koorui 34E6UC offers a WQHD resolution of 3840 x 1440 pixels, so you'll see every detail with ease, while the 400 HDR technology guarantees intense colors and contrasts that bring the images on screen to life. The 21:9 aspect ratio and 1000R Va screen curvature surround you with images on all sides, providing an immersive experience that takes gameplay to the next level.

Tailored to suit different needs

Provide the comfort of your dreams while playing your favorite games! With a height adjustment of up to 110 mm, you can set it at a height that suits you, avoiding unhealthy tension in your neck and back. Adjusting the tilt angle from 5 to 20° allows you to find the perfect viewing angle, and the side swivel function makes it effortless to adjust it to your needs, whether you're working or playing.

Takes care of your eyesight

The Koorui monitor takes care of your health and comfort even during prolonged use. With its blue light reduction feature, the monitor minimizes the effects of harmful blue light on your eyes. This means you can spend hours in front of the screen without worrying about excessive eye fatigue. Now your gaming sessions or computer work can be even more comfortable.
