

Suction cup mount PGYTECH for sports cameras (P-GM-126)

Suction cup mount PGYTECH for sports cameras (P-GM-126)

Ref: 6970801336438

Sports Camera Mount

With the self adhesive sports camera mount, you will capture every important shot. The mount can be attached to flat as well as curved surfaces to capture moving shots. It even works on surfaces such as, helmet or dashboards.

Compatibility

Mount fits sports cameras such as, GoPro, Insta One R / X / X2, Osmo Pocket / Pocket 2 and Osmo Action.

Easy to install and remove

The mounting base is very easy to remove, making it ideal if you frequently change the locations you are recording. You also don't have to remove the base every time, you can leave it attached for faster camera application in the future.

Comfort of use

The attachment switch can tilt and rotate 360° so that even the smallest detail will not escape your attention while recording. The knob is convenient, it helps you to fasten and unfasten the mount. The sports camera adhesive mount uses a release pin, so you can fasten and unfasten the mount easily and quickly.

Solid performance

The mounting base is glued with a strong tape that sticks well to any smooth surface. You can also use a safety cord for added protection, in case the camera might fall. The mount is made of high quality aluminum and plastic, making the product durable and long lasting.
