### HAVIT H2002E Gaming Headphones (Black)

Discover the excellence in sound and comfort with HAVIT H2002E gaming headphones. Perfect for gaming enthusiasts, these black headphones combine high-quality sound, comfort, and versatility, making every gaming session even more captivating. Designed for long-lasting comfort and exceptional sound clarity, these headphones are an essential accessory for every gamer.

#### Adjustable Headband and Comfort

The HAVIT H2002E headphones feature an adjustable headband that allows for a perfect fit for every user. This feature not only provides greater comfort but also ensures better sound quality and effective acoustic isolation.

#### High Compatibility

Thanks to the use of a universal 3.5mm mini jack plug, these headphones are compatible with a wide range of devices. This versatility makes them perfect for gamers using various platforms, from consoles to personal computers.

#### High-Quality Omnidirectional Microphone

An omnidirectional microphone with detachable capability is a crucial feature for gamers who want full control over in-game communication. The high sensitivity and sound clarity of the microphone ensure that every command and comment will be clearly heard.

by other players.

#### Intuitive Sound Control

There is a switch on the headphone cable that allows for easy volume adjustment and toggling the microphone on or off. This functionality provides quick and convenient control, allowing you to adjust sound settings without interrupting the game.

#### Comfortable Ear Cushions and Lightweight Design

Soft protein leather ear cushions and a lightweight construction make the HAVIT H2002E headphones exceptionally comfortable even during long gaming sessions. This comfort is invaluable, especially when a game requires focus and extended engagement.
