Wireless Mouse Havit HV-MS989GT

Discover a new level of productivity and entertainment with the Havit wireless mouse! Easily connect it to your chosen device on the 2.4 GHz band, and thanks to adjustable DPI, you can customize its precision to your needs. The buttons have a lifespan of up to 1 million clicks, ensuring it serves you well for a long time.

Wireless Freedom

Forget about tangled cables forever! The Havit mouse connects to your selected device on the 2.4 GHz band, with a signal range of up to 8 meters. Thanks to the plug-and-play feature, using it becomes hassle-free - simply plug the mini receiver into your device! No more wasting time on complex installations or configurations - the Havit HV-MS989GT is ready to use right after you connect it.

Resolution Adjustment

The Havit mouse is designed with various user needs in mind. With adjustable DPI ranging from 800 to 1600, you have full control over the cursor's precision and speed on the screen. Whether you're working on graphic projects, gaming, or simply browsing the web, you can effortlessly customize the mouse's performance for any task.

Exceptional Comfort

The ergonomic design of the mouse perfectly fits the shape of your hand, providing a natural wrist position even during long working hours. The Havit HV-MS989GT also offers an auto-sleep function to help you save energy. The mouse automatically goes into sleep mode when not in use for a certain period – a single click brings it back to work!
