

Wireless Lavalier Microphone PULUZ PU647B (lightning)

Wireless Lavalier Microphone PULUZ PU647B (lightning)

Ref: 5905316148093

PULUZ wireless microphone (lightning).

Start creating professional recordings today! The PULUZ Wireless Microphone accurately captures 360° of sound, and with ENC noise cancellation, your recordings will be clear and free of noise and distortion. It is compatible with many Apple devices and supports plug & play. It stands out with a range of up to 10 meters, and the powerful battery allows up to 12 hours of recording.

Distortion-free sound

Whether you're recording conversations, interviews, concerts or even live broadcasts, the microphone will deliver sound that satisfies even the most demanding listeners. The accessory accurately captures sounds from all sides. ENC noise reduction technology effectively reduces interference and external sounds that can reduce the quality of recordings, especially in noisy environments.

Even more freedom

The PULUZ microphone uses a 2.4 GHz wireless connection that provides stable signal transmission at distances of up to 10 meters, free of lag. It also supports plug & play, so you simply connect the receiver to the device of your choice to start recording. What's more, the built-in 300 mAh battery allows recording for up to 12 hours.

Compatible with your device

The wireless microphone will find use in many different situations. It will be great for recording vlogs, conducting interviews or live streaming on social media. Thanks to its iOS compatibility, you will successfully connect it to many iPhone and iPad models. The microphone also works with various social media platforms, including Tik Tok, Snapchat, Instagram and YouTube.
