Computer speakers Havit SK213 2.0 Bluetooth RGB

Havit SK213 Bluetooth RGB 2.0 Computer Speakers

Impressive design, high-quality stereo sound, and dynamic RGB lighting - Havit SK213 computer speakers offer the perfect combination of functionality and style for every audio enthusiast and modern aesthetics lover. With solid output power, a wide frequency range, and easy connectivity, these speakers are an excellent choice for both work and entertainment. Discover what else they have to offer!

Dynamic RGB Lighting

The dynamic RGB lighting in Havit SK213 speakers adds energy to any room. The ability to customize colors and lighting effects allows you to create a unique atmosphere that perfectly complements music, movies, or games. It's not just a decorative feature but also a way to showcase your individual style.

Stylish Design

The stylish, modern design of Havit SK213 speakers sets them apart from other products. Their compact dimensions (98 x 112 x 184mm) make it easy to place them on a desk or in any other location. The black color and the combination of plastic with iron mesh create an elegant and durable design that complements any interior.

Stereo Sound Quality

These speakers offer high-quality stereo sound that brings music, movies, and games to life. With two 2.5-inch drivers and an output power of 3W x 2, Havit SK213 delivers clear and balanced sound. The wide frequency range (60Hz-20kHz) ensures that every tone is crisp and detailed.

Easy Connectivity

Havit SK213 speakers come with universal USB and 3.5mm plugs, making it easy to connect to most devices. Additionally, the Bluetooth feature expands connectivity options, allowing for wireless music streaming from phones, tablets, or laptops.

High Signal-to-Noise Ratio

A signal-to-noise ratio of >70dB ensures minimal interference, which is crucial for audio purity. Combined with a low impedance of 4Ω, these speakers provide stable and efficient sound transmission, resulting in a better listening experience.
