Water Fountain for pets HHOLove CT-FTKSD

HHOLove smart fountain allows you to take care of your pet's health. Thanks to 4-stage filtration, it effectively cleans water from impurities and stands out for its quiet operation. What's more, it works wirelessly, and the modular design allows you to thoroughly clean the drinking elements. In addition, the water tank's capacity of 1.6 liters means you don't have to refill it too often.

Clean water for your pet

With HHOLove, you can be sure that the water your pet drinks is clean. The fountain uses an effective filtration system that consists of 4 parts: a high-density PP mesh, an activated carbon layer, a cotton and an iron filter. This ensures that even small impurities are retained and your pet can drink water that is healthy and safe for its health.

Quiet operation

Are you worried that the noise generated by the device will be annoying for your cat? Don't be! The drinker operates at a level of about 30 dB, so it will not disturb the rest of both household members and pets.

Refined design

The fountain is equipped with a water tank with a capacity of 1.6 l, and this amount is enough for about 4-7 days (for an adult cat). In

addition, the device imitates the natural flow of water, encouraging your pet to drink the water. What's more, the pump has been separated from the tank to make using the device safe. In turn, a red light indicator will let you know when you need to refill the water.

Thoughtful solutions

The drinker has been equipped with silicone elements that provide stability and prevent the device from moving. What's more, the nylon braided cable is resistant to damage and your pet's teeth. On the other hand, cleaning the fountain will not be a problem for you, thanks to the modular design you can easily rinse its elements under running water. It is recommended to clean the drinker at least once a week.
