Magnetic holder Lisen, for dashboard (black)

Magnetic holder Lisen, for dashboard (black)

Lisen Magnetic Dashboard Mount Holder (Black)

The Lisen Magnetic Mount Holder stands out with its ability to fold up to 180° and rotate 360°. Thanks to its metal construction, it is exceptionally durable, and the use of N55 magnets ensures stability for the device placed on it.

Magnetic Power

The holder is equipped with 6 powerful permanent magnets of the N55 type, capable of holding weights up to 4000 grams. You can confidently place your phone on it even during dynamic driving.

Durability

The holder is made, among other materials, of zinc alloy, which translates into durability proven through numerous durability tests. The accessory also effectively dissipates heat and is resistant to extreme temperatures.

User Convenience

The holder allows for easy one-handed phone operation. Additionally, you can mount it on any surface outside the car and adjust it to your desired angle.
