

Magnetic wallet Lisen, for iPhone (black)

Magnetic wallet Lisen, for iPhone (black)

Ref: 5905316149151

Magnetic Wallet for iPhone by Lisen (Black)

The Lisen Magnetic Wallet combines modern design with functionality, offering a unique solution for iPhone users. Equipped with strong magnets, it ensures reliable attachment to the phone, ensuring the safety of your cards and documents. It also protects cards from unauthorized scanning and prevents demagnetization. A practical ring allows for convenient phone positioning. This accessory provides a compact and stylish solution for those who value convenience and security.

Safety First

The use of powerful, high-adhesion magnets ensures that the Lisen wallet stays in place regardless of circumstances. Furthermore, the high-quality RFID Barrier material provides protection against unwanted access to data on RFID cards. This advanced technology is a response to the growing digital threats and reliably safeguards personal and financial information of users.

User Convenience

The Lisen Magnetic Wallet is designed with user convenience in mind. Its magnetic feature allows for quick and hassle-free attachment and detachment from the back of the iPhone. A dedicated compartment provides easy access to cards without the need to search through your bag. Additionally, the accessory offers a ring that not only enhances phone grip but also serves as a stand, allowing for comfortable video viewing or video calls.
