

Smart Wi-Fi Wall Switch Meross MSS510 EU (HomeKit)

Ref: 0680306682393

Smart Wi-Fi Wall Switch Meross MSS510 EU (HomeKit)

Meross MSS510 smart light switch (HomeKit)

Meross brand smart switch will give you convenient control over the lighting in your home. Control the lights remotely using the app, create schedules, set timers and use the smart scenes feature. The device is compatible with Apple HomeKit, Amazon Alexa and Google Assistant, so you can also operate it by voice. The product requires a neutral (blue) wire and a mounting box (not included) for proper setup.

Full control in your hands

The device works not only with the Meross app, but also with Amazon Alexa, Google Assistant and Apple HomeKit. So you're free to control your lighting from anywhere - just reach for your phone! The switch also supports voice control with smart assistants. Now, to turn the lights on or off, all you have to do is say a simple command - you don't even have to move from your seat!

Customize lighting to fit your lifestyle

This is not the end of your possibilities! Using your smartphone, you can easily create a schedule for your lighting or set a timer. Smart scenes are also available. Now your lights can turn on automatically when you get home from work and turn off when you leave the house - just set the times!

User-friendly

The switch has been designed to be as easy and pleasant to use as possible. A special LED indicator not only informs about the status of the device, but also helps to find it in the dark. Installation and configuration of the product will not cause you any problems. You can use already existing Wi-Fi network for this - additional hub is not required.

In the box

- 1x smart wall switch
- 4x screw
- 1x user manual
