

Car Dashboard Holder Joyroom JR-ZS246 with Qi Inductive Char

Car Dashboard Holder Joyroom JR-ZS246 with Qi Inductive Charger (Black)

Ref: 6941237179746

Joyroom JR-ZS246 car dashboard mount with Qi inductive charger (black)

The Joyroom JR-ZS246 mount allows you to comfortably use your navigation while traveling. In addition, it offers fast and wireless charging of 15W. As a result, it will renew your smartphone's energy 2 times faster than other products of this type. What's more, it automatically closes, and the LED backlight gives it a stylish look. It fits smartphones with a screen diagonal of 4.7" to 6.8", and a special locking mechanism ensures stability. In addition, the holder does not obstruct visibility while traveling, for greater safety of use.

Safe charging

The improved design of the holder automatically detects the charging area of the smartphone and increases compatibility. In addition, the product is Qi certified and has protections against overheating, overvoltage, overcharging, etc., so you are assured of safe use. What's more, it can withstand high temperatures and loads of up to 9 kg.

Wide compatibility

Are you worried that the mount will not work with your equipment? Don't be! Joyroom JR-ZS246 fits smartphones whose screen diagonal does not exceed the range of 4.7-6.8" and thickness - 8 mm. Therefore, you will successfully mount smartphones of such brands as Samsung, Apple or Huawei. In addition, magnetic, silicone or leather cases do not affect the quality of charging.

Comfort of use

Joyroom provides the user comfort you deserve. The holder is equipped with a high-tech mechanism that allows the holder to automatically open. On the other hand, if you want to remove your phone, press the dedicated button. In addition, it has LED backlighting, which will make it easier to locate the holder after dark.
