

## Earbuds True Wireless Joyroom JR-DB1 (Black)

Earbuds True Wireless Joyroom JR-DB1 (Black)

Ref: 6956116731328

### Joyroom JR-DB1 Wireless Headphones (Black)

Listen to your favorite music in high quality for up to 8 hrs (on a single charge). The headphones are equipped with 6mm drivers and feature a long-lasting battery that, along with the case, provides up to 28 h of use. In addition, each headphone pairs independently with a compatible device via Bluetooth 5.3, providing a fast and stable connection. The ergonomic design provides comfort, and the touch panels allow quick adjustments.

### Impressive sound

Rediscover songs with the Joyroom JR-DB1. The headphones use 6mm drivers, which translates into high quality sound. What's more, the use of pure copper further contributes to the sound quality. As a result, you can enjoy bass-rich sound.

### Long runtime

Each of the headphones has a 50 mAh battery and the charging case has a 290 mAh battery, allowing them to work for up to 8 h or 28 h, respectively. You'll also find a USB-A to USB-C cable included to renew the energy of the headphones. After about 1.5 h, they will be ready to continue working.

### Stable connection without lagging

Listen to your favorite music without worrying about interference The Joyroom JR-DB1 connect to a compatible device via Bluetooth 5.3, which translates into a stable connection and fast signal transmission without lag. What's more, each headphone pairs with your smartphone independently, so you can use both or just one.

#### User-friendly

The headphones offer touch panels with which you can control their operation. From them, you can quickly and conveniently stop/restart playback, reject/receive/end a call, skip a song or activate the voice assistant. In turn, the ergonomic design of the headphones ensures long-lasting comfort, and the included overlays in several sizes will allow you to customize the Joyroom JR-DB1 even further.
