

Wired Earphones Joyroom JR-EW05, Half in Ear (White)

Wired Earphones Joyroom JR-EW05, Half in Ear (White)

Ref: 6941237128218

Joyroom JR-EW05 wired in-ear headphones, (White).

High-quality sound and exceptional comfort go hand in hand in the Joyroom JR-EW05 headphones. They combine an enhanced, semi-ear design with a built-in remote control and microphone for easy operation and casual phone calls. With a frequency range of 20Hz to 20KHz and ϕ 14.2mm speakers, they are made to satisfy even the most demanding musical tastes.

Improved design for long-lasting comfort

You don't have to choose between comfort and sound quality. The JR-EW05 headphones are designed with a semi-ear shape for long-lasting comfort. You can enjoy music, podcasts or conversations all day long without worrying about discomfort or fatigue.

Built-in remote control

You don't have to take your phone out of your pocket if you want to answer a call or change a song. With a built-in remote control with a simple interface, the headphones allow you to answer, make and reject calls and control your music player. Two buttons will give you hassle-free operation!

Microphone for casual conversations

The JR-EW05's built-in microphone provides clarity and crisp sound during phone calls. Whether you are at home, in the office, or

outdoors, your conversations will always be clear.

Exceptional sound quality

With ϕ 14.2mm speakers with a frequency range of 20Hz - 20KHz, the JR-EW05 headphones offer a full spectrum of sound. Discover deep bass, clear mids and bright highs that together create a harmonious and balanced music experience, and delight in every detail in your favorite songs!

Universal audio connector

You'll connect the JR-EW05 headphones to your device via a 3.5mm connector. This means you can enjoy wide compatibility and easily listen to music from your phone, laptop, computer, or tablet without worrying about interference!
