Power Bank Joyroom JR-L015, 22.5W 20000mAh (Black)

Power Bank Joyroom JR-L015, 22.5W 20000mAh (black)

Equip yourself with a powerbank with impressive capabilities and enjoy reliable operation of your devices. The JR-L014 by Joyroom provides 22.5W of power, supports PD3.0 and QC3.0 fast charging protocols, and offers 2 cables - USB-C and Lightning. It also boasts a 20,000 mAh capacity and comes with 4 ports. This allows you to renew the energy of several devices at the same time without any problems. In addition, LEDs indicate the status of the battery, making it more convenient to use. And that's still not all - the device can also function as a flashlight!

Efficient charging

The Joyroom powerbank is distinguished by a capacity of up to 20,000 mAh and is equipped with 4 output ports. This allows you to freely renew the energy of several devices at the same time. Its power reaches 22.5 watts, with the added advantage of supporting PD3.0 and QC3.0 fast charging protocols. As a result, your equipment will be ready to work again in no time! In addition, the integrated cables eliminate the need to buy additional cables.

LED indicators

Thanks to the practical LED indicators, you can conveniently check the battery charge level of your powerbank. Green indicates a high level of charge, while blue is equivalent to being between 50 and 75%. Orange, on the other hand, indicates that the charge level of the

device is between 25 and 50%. Red indicates that the product's energy needs to be renewed.

Powerbank and flashlight in one

The Joyroom device will not only renew the energy of your devices, but also serve as a flashlight. Take the powerbank with you on a trip, conveniently charge your equipment, and when you get the urge for evening reading, just turn on the light!
