

Charger Joyroom JR-TCF08EU Speed PD, 30W A+C (Black)

Ref: 6956116774479

Charger Joyroom JR-TCF08EU Speed PD, 30W A+C (Black)

Joyroom JR-TCF08EU Speed PD mains charger, 30W A C (black).

The Joyroom JR-TCF08EU is a network charger that supports fast charging, allowing you to connect two devices simultaneously. The USB-C port supports a maximum power of 30W, while the USB-A port supports 22.5W, so you can save time and get back to interrupted tasks. The charger is equipped with technology that allows for greater charging efficiency while reducing temperature. Moreover, in addition to overheating, the charger also protects against over-voltage, over-power, short circuit or electrification. To top it off, the housing is made of fireproof polycarbonate used with your safety in mind.

Fast charging for multiple devices

The Joyroom JR-TCF08EU is an excellent mains charger that stands out for its ability to charge two devices simultaneously. Its unique feature is a USB-C port with an impressive 30W of power and a USB-A port offering 22.5W. This means you can charge your laptop and smartphone at the same time, saving valuable time and allowing you to quickly get back to work or entertainment. Without a doubt, this is a device that will meet the needs of multitasking users.

Efficiency and protection

The technology used in this charger is a true innovation. In addition to providing greater charging efficiency, which translates into shorter time to fully charge devices, it has been designed in a way that effectively reduces heat generation. This technology not only improves

efficiency, but also takes care of safety by protecting against the risk of overheating, over-voltage, over-current, or short-circuit hazards. This is a noteworthy combination of performance and protection.

Safety in every detail

Mentioning the Joyroom JR-TCF08EU, one cannot overlook the important feature of its fireproof polycarbonate housing. This plastic not only gives the charger an aesthetically pleasing appearance, but most importantly, it acts as an effective barrier, protecting the device and its surroundings from possible dangers. This is a significant step towards ensuring complete safety during charging, which is of paramount importance, especially at a time when the number of electronic devices in our environment is constantly increasing. With this sturdy enclosure, the Joyroom JR-TCF08EU is not only comprehensively functional, but also provides peace of mind knowing that your devices are being charged safely and reliably.

Set contents

Charger

□ Brand

□ Joyroom

□ Model

□ JR-TCF08EU

□ Color

□ Black

□ Material

□ Fire resistant polycarbonate

□ Supported power

□ 30W (max)

□ Supported voltage

□ 100-240V~, 50/60Hz, 0.8A

□ PD output

□ 5V=3A 9V=3A 12V=2.5A 15V=2A 20V=1.5A

□ PPS

□ 3.3-11V=3A 3.3-16V=2A

□ QC3.0 Output

□ 5V=3A 4.5V=5A 5V=4.5A (SCP) 9V=2A 12V=1.5A(22.5W)Max

□ Simultaneous output voltage

□ 5V=3A(15W)Max
