

Magnetic dashboard car holder Joyroom JR-ZS356

Magnetic dashboard car holder Joyroom JR-ZS356

Ref: 6956116768409

Joyroom JR-ZS356 Magnetic Car Dashboard Mount

The JR-ZS356 is a magnetic phone holder with a weight capacity of 4kg, ensuring a secure hold for your attached phone or small tablet. The soft silicone coating prevents any scratches from appearing on your device during usage. The flexible base and strong adhesion positively impact its stability and the force with which it clings to the dashboard's surface. You can position your devices on the holder at various angles to ensure optimal visibility and usage comfort.

Soft Silicone Coating

The silicone coating that covers this holder is another beneficial feature of the product. The soft texture of the silicone ensures that using the holder won't leave any marks or damages on your device. This practical protection helps maintain your device's aesthetics.

Flexibility and Adhesion

Exceptional flexibility in the holder's base and high adhesion are key features influencing its stability and certainty of attachment to the dashboard's surface. Regardless of road conditions, the holder remains secure, providing reliable support for your device.

Great Versatility

The JR-ZS356 also offers the freedom to choose the viewing angle. Thanks to its adaptable design, you can adjust the holder to different

angles, ensuring optimal visibility and user comfort. This practical and functional solution makes using your phone while driving easier.
