

## Magnetic air vent car holder Joyroom JR-ZS356 (black)

Ref: 6941237100023

Magnetic air vent car holder Joyroom JR-ZS356 (black)

### Joyroom JR-ZS356 Magnetic Car Vent Mount

The Joyroom JR-ZS356 is a magnetic car vent mount designed to hold smartphones and small tablets securely on the dashboard grid. It has the ability to support devices weighing up to 4 kg, ensuring a stable and safe grip. The mount is covered with a soft silicone layer, which protects the devices from scratches during usage. Thanks to its flexible base and strong adhesion, it offers significant stability and attachment to the dashboard surface. It allows for mounting devices at various angles, adjusting visibility and user comfort according to personal preferences.

### Materials

The soft silicone coating is a crucial element of this mount. With this cushion made of soft silicone, you will avoid scratches and damages to your device while using the mount. This practical safeguard helps maintain the aesthetics and quality of your equipment in an undamaged state.

### Stability

Flexibility and strong adhesion are key features of this mount. Thanks to its exceptionally flexible base and strong grip, the mount maintains stability and assurance on the dashboard surface, even in variable road conditions. This ensures reliable support for your device, providing safety during your travels.

#### Customization

The Joyroom JR-ZS356 mount offers significant customization possibilities. With its flexible design, you have the freedom to choose the angle of placement, allowing for optimal visibility and user convenience. This functionality is a practical solution, facilitating phone usage during travel.
